

AGRiliq boosts Feed Conversion

Neal Davis owns and operates a cattle feedlot at Redlands Station near Charters Towers, Queensland. His cattle are fed a very cost effective ***AGRiliq*** Complete Cow diet, which Neal blends on site.

Mr. Davis says that his cattle have been exceeding his expectations in terms of weight gain for the amount of feed consumed.

"The cattle are utilising the feed a lot better, resulting in better weight gain for less feed consumed" Mr. Davis said.

At the same time Neal has observed improved health and mobility in his cattle and in his calves and wieners in particular.

"Appearance-wise my cattle are more healthy and this season my livestock health issues are next to none".

*"AGR Industries are on a winner with ***AGRiliq***"*

Neal Davis, Redlands, Charters Towers, Queensland.
